PLUG-IN RACEWAY

Power When, Where & How You Need It: Ideal power for the retail environment.

Universal Electric Corporation (UEC), the manufacturer of Starline, is built on over 90 years of innovation in delivering safe and flexible power to a variety of industries, businesses and institutions. Expertly designed as a simple, versatile, fast and economical solution for supplying power, our products are unique because they can be tapped instantly at any location. For electric power distribution in retail stores and facilities, no other systems install this easy and allow you to add, remove or relocate power this fast.

Unlike traditional track lighting, with **Starline Track Busway** both lighting and power are connected in the same housing. This means the system can power lighting and also provide power to equipment such as cash registers, coolers/ freezers and other necessary equipment for day to day operations.

For flexible wall-mounted power, **Starline Plug-In Raceway** is the perfect solution for those retail environments that need to change displays regularly.

STARLINE®

Overhead power and lighting:
Flexibility that's in your reach.

With **Starline Track Busway**, easy installation means reduced store construction time and costs. Our modular, overhead electrical distribution system is **flexible** and **scalable** so you can relocate power anywhere you need it. In addition, the system is available in custom colors, meaning it can blend seamlessly into your store theme.

As the industry standard for flexible power in the retail environment, we have become the power distribution supplier of choice for some of the biggest retail names in North America. And with both power and lighting capabilities, Starline Track Busway is the ideal and comprehensive electrical distribution choice that can save time and money, today and tomorrow.

STARLINE®
TRACK BUSWAY

Benefits of Starline Track Busway:

REDUCED STORE CONSTRUCTION COSTS

- Simple set up means installation is less expensive
- Eliminates costly change orders and outside labor costs for electrical specialists and contractors
- Lower cost of ownership

FASTER INSTALLATION

- Building projects are up and running faster
- Add, remove or relocate power easily and quickly anywhere in the store with no downtime, and no extra costs

FLEXIBILITY FOR THE FUTURE

- Faster and less costly remodeling
- Plug-in units can be disconnected and connected without de-energizing the busway
- Requires no routine maintenance

ENVIRONMENTALLY FRIENDLY

- Less installation materials
- Busway and outlets are reusable and re-locatable

MORE CHOICES FOR MORE STORES

- Scalable, reusable and customizable lengths, sizes and configurations to meet your unique specifications
- Aesthetically appealing, available in standard and custom colors
- Can work with any manufacturer's lighting fixtures
- Ability to quickly add or relocate seasonal displays

Wall mounted flexible power:
No wires. Endless possibilities.

Starline Plug-In Raceway was created to meet the ever-changing power distribution and datacom needs for retail applications such as convenience stores, fitness centers, point of sale registers and retail displays.

Though it may look like other raceway products, Starline Plug-In Raceway has the fastest install times in the industry. It also has the unique ability to **add** or **relocate** plug-in modules after installation anywhere on the raceway, quickly and easily.

When changing or repositioning power receptacles, you simply snap the pre-assembled plug-in modules into place on the raceway backplane. The connection to power is made automatically without having to interrupt power.

STARLINE®
PLUG-IN RACEWAY

Benefits of Starline Plug-In Raceway:

REDUCED INSTALLATION COSTS

- Fast installation means labor costs are reduced
- Eliminates costly changes after installations, due to its flexibility
- Lower overall cost of ownership

FLEXIBLE AND SCALABLE

- The Starline raceway system can be easily expanded, relocated and reconfigured
- Add additional raceway without having to run additional wiring
- Add additional plug-in modules without the need for an electrician
- Able to relocate from space to space, if needed
- These unique features make Starline Plug-In Raceway one of today's most "Green" electrical products

RELIABLE

- Raceway has similar technology as Starline Track Busway, which is the industry leader in mission critical applications
- Tested to meet NEC, UL and IEC standards
- Also ETL Listed

AESTHETICALLY APPEALING

- Available in many finishes and colors
- Compact, low profile design

Universal Electric Corporation (UEC), the manufacturer of Starline, has been a leader in power distribution since 1924. The company's founders led the way for many new technologies in the power distribution equipment industry. Today, this family tradition of innovation continues to pave the way for safer, more innovative and more reliable electrical power distribution systems.
