

Putting the power
in your hands.

Next generation raceway for today's power needs.

Starline Plug-In Raceway was created to meet the ever-changing power distribution and datacom needs of healthcare, education, industrial, data center and retail applications.

Though it may look like other raceway products, Starline Plug-In Raceway has the fastest install times in the industry. It also has the unique ability to add or relocate plug-in modules anywhere on the raceway quickly and easily, even after installation.

When changing or repositioning power receptacles, you simply snap the pre-assembled plug-in modules in place on the raceway backplane. The power connection is made automatically without having to interrupt power.

Starline's products are in a class by themselves.

Benefits of Starline Plug-In Raceway:

REDUCED INSTALLATION COSTS

- Fast installation means labor costs are reduced.
- Eliminates costly changes after installations, due to its flexibility
- Lower overall cost of ownership

FLEXIBLE AND SCALABLE

- The Starline raceway system can be easily expanded, relocated and reconfigured
- Add additional raceway without having to run additional wiring
- Add additional plug-in modules without the need for an electrician
- Able to relocate from space to space, if needed

RELIABLE

- Raceway has similar technology as Starline Track Busway, which is the industry leader in mission critical applications
- Tested to meet NEC, UL and IEC standards
- Also ETL Listed

AESTHETICALLY APPEALING

- Available in many finishes and colors
- Compact, low profile design

Common Applications:

SCIENCE, TECHNOLOGY & HEALTHCARE

Ideal for hospitals, pharmacies, and research and development. Designed to provide flexibility and reliability, the raceway helps facilities run at full efficiency.

EDUCATION

For use in next generation classrooms, labs, research, science and engineering spaces.

DATA CENTER

For higher density server cabinets, multiple types of receptacles and future flexibility.

INDUSTRIAL

Efficient and economical solution for supplying power and expanding operations quickly.

RETAIL

Ideal in fitness and fast-paced retail environments using modules that are easy to install and no electrician needed to add power.

POWER ONLY

POWER AND DATA

CABINET BUSWAY SERIES

Cabinet Busway is a preassembled system ideal for server cabinets and industrial workbench applications. By utilizing the Plug-In Raceway components, it becomes an ideal configuration for applications that require higher power density, multiple types of receptacles, and future flexibility.

PLUG-IN MODULES

Plug-in Modules are universal for all of the Plug-In Raceway systems above. Modules can be easily moved or added to any of these systems, and receptacle combinations can be mixed and matched to create the most efficient design possible.

With over 30 years of experience in the market, Starline has the knowledge and expertise to ensure that your system is functioning at a best-in-class level. Our trained and authorized factory representatives will provide unmatched on-site services whenever you need them.

METER SERVICES

Certified technicians will safely and efficiently program meters

Technicians can integrate your CPM devices so that you can focus on operational goals

Real-time data delivers the analytics to make better operational decisions

STARTUP AND SYSTEM CERTIFICATION

The system certification process helps mitigate issues and risks associated with startup by proactively inspecting, testing and reporting on Starline products

Our on-site technicians will rely on proven best practices and operational compliance standards to help meet your commissioning deadlines

Upon successful completion of system startup, Starline's standard manufacturer's warranty will be automatically extended in duration

ENGINEERING STUDIES

Engineering Studies allow for compliance to safety standards

Engineers will provide facility electrical studies, recommend corrective actions or confirm your systems reliability and compliance with government and safety requirements

ON-SITE INSTALLATION SUPPORT

Confirm equipment delivery and quality

Contractor training on best practices for installation

Visual inspection of proper system installation

Expedited part replacement (if required)

ON-SITE PRODUCT TRAINING

Classroom and hands-on Raceway training

Proven course curriculum is thorough and effective meeting Starline's rigorous installation and operational standards

Improve operator safety and learn best practices to care for your product

For more information on service offerings, ask your Starline Sales Representative or download the detailed Statement of Work documents at: <http://downloads.starlinepower.com/services/>

Starline, a brand of Legrand, has been a leader in power distribution since 1924. The company's founders led the way for many new technologies in the power distribution equipment industry. Today, Starline continues to pave the way for safer, more innovative and more reliable electrical power distribution systems. Visit [StarlinePower.com](https://www.starlinepower.com) to learn more about our flexible power solutions.
