

## Straight to the point. Monopoint lighting right where it's needed.

Combining the reliability of busway construction and the versatility of track lighting, Starline Track Busway offers easy lighting integration with the Starline Monopoint adapter plug-in. The Monopoint adapter can be added or moved anywhere along the system for easy twist-in installation of a Monopoint light. It's a smart, efficient, and customizable power distribution solution for any lighting application.

### BENEFITS

-  Customizable
-  Convenient
-  Lowers Maintenance

### FEATURES & SPECS

Eliminates the need for traditional track lighting by combining 3-phase power distribution with standard lighting fixtures

Monopoint adapter allows user to safely control lighting at the point of use without turning off the busway power
